## Work Experience

### One Document Corporation

November 2024 - Present

I.T Helpdesk Support Multi-site/MSP

- **JKQ Hospital**

- Delivered 24/7 Level 1 IT helpdesk support in a hospital environment, managing Active Directory tasks including user provisioning, password resets, onboarding/offboarding, and access control.
- Provided Level 1 and Level 2 technical support for hospital IT systems and equipment, including troubleshooting, repair, and upgrades for desktops, operating systems, printers, and IP phones.
- Managed incidents and service requests through OS Ticket while troubleshooting LAN/WAN issues and supporting data-center operations, including rack-and-stack, structured cabling, and server and network-switch deployment

- **BlueSky Theme Park and Event Center**

- Acted as Network Administrator for a TP-Link Omada enterprise network, configuring switch ports, VLANs, ACL policies, SSIDs, and MAC-address whitelist groups to maintain reliable connectivity across POS, server, employee, and guest networks.
- Provided technical support for POS systems, desktops, Microsoft products, and IT peripherals such as cash drawers and receipt printers through installation, configuration, troubleshooting, preventive maintenance, and issue resolution.
- Developed a network-monitoring script with website dashboard (Zabbix-like) that automatically logged high latency, request-timeout events, and resources/performance real-time status during business hours, enabling faster incident identification and root-cause analysis.

- **National Electrification Administration (NEA) - Main**

- Provided workstation setup for 60 workstations that will be deploy to NEA branches nationwide.
- Developed a PowerShell automation script that streamlined required application installations, and Hyper-V-hosted Ubuntu server configuration.
- Tested all 60 workstations for compatibility with applications and websites developed by the development team, ensuring that captured data was complete and transmitted in real time to the NEA Command Center in Quezon City.

### DICT Pangasinan

October 2023 – February 2024

IT Support & Network Engineer Assistant (Internship)

- Provided IT and network support for government offices, troubleshooting endpoints, connectivity issues, and IT infrastructure.
- Assisted in VSAT deployment and Free Public Wi-Fi projects, performing installation, configuration, testing, and validation activities.
- Supported ICT operations through technical documentation, user assistance, and on-site support during government initiatives and trainings.
